RVM Construction is proud to announce the recent completion of The Mosier Eye Center. The owners at Mosier came to us with the desire to update their facility, make it beautiful and inviting to patients, while solving critical business issues affecting their bottom line. We listened to all of their concerns and came up with a plan to meet their needs. Now patient flow, traffic to the eyeglass display cases, exam rooms, and storage all make sense and work with their business without frustrating stops and starts. More patients, more sales, less time, just what the doctor ordered!
